2 — 2446 High Speed Drum Printer
3 — 2405 Processor
4, 5 — 2430 Series Magnetic Tape Drives

SYSTEM 2400 DOES IT BETTER

Many of today's high speed computers are I/O bound. They are being called upon to perform menial tasks that involve the main frame with relatively slow speed peripherals. Even with multiprogramming, main frame involvement with these peripherals degrades efficiency and increases costs.

THE PERIPHERAL PROCESSOR

MOHAWK DATA knows that you are faced with rising EDP costs.

MOHAWK DATA knows that you are faced with an ever increasing EDP workload.

MOHAWK DATA believes that YOU are really concerned with these problems.

MOHAWK DATA designed SYSTEM 2400 to improve your DATA-THROUGHPUT.

SYSTEM 2400 — CONFIGURE IT YOUR WAY!
